

# City Nature Challenge

April 24 – 27, 2026

In the Greater Phoenix Area  
[GreaterPhoenixCNC.com](http://GreaterPhoenixCNC.com)

Do you like observing nature?  
Make it count!  
**JOIN US!**

Join the  
iNat  
project!

## Take part in the challenge!

- 1 Download iNat app & create account**  
*\*Connect to SciStarter to double your impact!  
Flip for instructions.*
- 2 Join the Greater Phoenix CNC Project**  
*Scan the QR code and select "Join"*
- 3 Start observing!**

**Citizen science** invites anyone, regardless of scientific training, to help collect and contribute data for scientific research projects of all sizes. **The City Nature Challenge** puts this idea into a fun, friendly competition! Participants document wildlife across the region, generating valuable data that scientists use to study biodiversity. Phoenix Metro residents get to compete with other cities to see who can record the most observations.

### Organized by:

# City Nature Challenge

April 24 – 27, 2026

## DOUBLE YOUR IMPACT

April is *Citizen Science Month*!  
Help us reach **2.5 Million Acts of Science** by  
reporting your iNaturalist observations!

Create an account on **SciStarter.org**, an ASU  
research affiliate, and add your **iNat username** to  
settings (under "Affiliation Integration")—do this  
once, and all your observations count!

Why join SciStarter? Earn credit, explore  
more projects, and help measure impact!
